

Showroom Visit Checklist

Here are the 5 most important things to consider before visiting a KING Showroom:

Find inspiration

Create a mood board and bring in photos or save images on your phone. The more the better!

Check living space dimensions

Measure your living space and access points, including doorways, stairwells, lifts and hallways.

Bring floor plans, photos, samples and swatches

Bring floorplans, photos of existing furniture you're looking to match and if you're renovating, bring your paint swatches and samples.

Know lifestyle requirements

Consider your storage needs, if you need a modular design, and if fabric or leather is right for you.

Consider lead time

Have a clear idea on how long you can wait for new furniture

With some extra preparation you can buy with confidence, help the Showroom team understand your needs, and find the right designs for you.

Now, it's time to [visit your nearest KING Showroom.](#)
